MEMORANDUM

TO: PSAP Supervisors and Municipal Coordinators
FROM: Thomas Ashe, Deputy Executive Director
State 911 Department
DATE: August 12, 2008
RE: Eyretel E1000 Double Tap Configuration

On August 7, 2008, I sent a memorandum to you regarding the removal of the Eyretel E1000 digital logging recorder (DLR). I have since received several requests from public safety answering points (PSAPs) to keep the double tap configuration intact with the NICE DLR for various operational needs. The State 911 Department has reviewed these requests and understands the PSAP's interest in allowing double tap configurations in some instances. Therefore, your PSAP will be allowed to double tap the Eyretel E1000 or other DLR with the NICE DLR, with the understanding that all maintenance of any equipment located beyond the Verizon demarcation point is the responsibility of your PSAP. If you choose to keep the Eyretel DLR or other DLR in such a double tap configuration, please sign the attached Double Tap Configuration Form and send it back to the State 911 Department by August 29, 2008. The Eyretel E1000 Ownership Transfer Form that was faxed to you on August 7, 2008 will also be required in order to keep the double tap configuration of the Eyretel E1000. The deadline for that form has been extended to August 29, 2008.

For a copy of the August 7, 2008 memorandum and form, please visit www.mass.gov/e911. This memorandum and Double Tap Configuration Form also can be found at www.mass.gov/e911.

If you have any questions, please contact me at (508) 828-2911.
